About Us

1

+249123336788 - +249912270907 - +249910112191

Halwiat Saad St - Block No: 43, Building 202, Arkaweet, Khartoum - Sudan
Alkharat St, Burg Alaman, First Flour, Office No: 32, Kassala - Sudan
Alrabaa St, Block No: 2, House No: 60, Algardarif - Sudan

The main objectives of the good company are mastery and improvement of performance in work in all of the projects that are implemented, within the framework of developing plans, strategies and program packages that help in implementation with accuracy, mastery and creativity, contributing to achieving the project goals with efficiency and high quality. This is done by skilled administrators, engineers and technicians with full competence and knowledge of the nature of the work and the ability to face the challenges and tasks assigned to them and accomplish them in the best possible way during the implementation time and with the necessary quality.

The company has implemented several projects in different regions of Sudan, where it has worked with several institutions, companies and organizations to implement engineering and service projects in most of the different a region of Sudan, including:

1. The company implemented water harvesting projects in Greater Kordofan (North, South, East and West) with IFAD within the Livestock Marketing and Resilience Program.
2. Shelter, housing and food security projects were also implemented with Al-Hikma Organization in displacement camps in South Darfur.
3. Also worked with Save the Children International to implement a number of projects (shelters, and food security, FIs and NFIs) in displacement camps in Gadarif State.
4. Also worked with Plan Sudan in North Kordofan and White Nile (water harvesting and shelters).

Attached some completion certificates for a number of different projects in the fields of Construction, Solar energy, Electricity. Water harvesting projects and Facility management. There for the company has ability to work any were in Sudan rejoins.

HSE Policy Statement:

Business success in the long term depends on our ability to continuously improve the quality of our services and products while protecting people and the environment, and we must focus on human health, operational safety, environmental protection, quality enhancement and goodwill for society. This commitment is in the interest of our customers, our employees, contractors, our shareholders and the communities in which we live and work and require quantities. Effective commitment by all employees and contractors and accountability for them, and direct management has a leadership role in communicating, implementing and complying with the health, safety and environment policies and standards they are committed to.

Striving to protect and improve the health and safety of community security at all times.

Elimination of quality mismatches and incidents related to health and the environment. Fulfilling specific client requirements and ensuring continuous satisfaction.

Setting quality, health, safety and environment objectives, measuring results, continuously evaluating and improving processes, services and product quality through the use of an effective management system.

HSE Policy Statement:

- *Planning, responding and recovering from any emergency, crisis or any business interruption.*
- *Reducing the impact of the environment by preventing pollution, reducing national resource consumption and emissions, and reducing and recycling waste.*
- *Apply technical skills to all aspects of health, safety and environment in designing, services and products.*
- *Communicate clearly with stakeholders and ensure the understanding of policies, standards, programs and performance while rewarding out stand performance in health, safety and environment aspects.*
- *Improving performances relevant to in issues our stakeholders that are in high importance and we have an impact on them and share with them our knowledge on the success of our programs and initiatives in health, safety and environment.*

“These policies must be reviewed regularly to insure continued suitability. These listed obligations are added to primary obligation to comply with the college standards as well as with applicable laws and regulations. This crucial to the success of Quantities Company business because it allows the company to successfully all losses and add value to all stakeholders. ”
